

ATR LIEN VAN ROOYEN

Namane Simon Tsoeleng of the School Ministries in Mapela Mokopane, Limpopo Province:

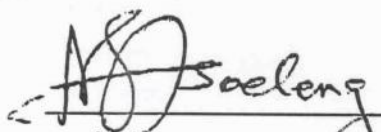

I thank God from the bottom of my heart for the privilege of attending the CABSA workshop in Ia Verna. It was from 22-28 February 2010.

This was a life changing workshop it was like God took us aside for a week just to change our attitude. Especially my attitude, my thinking and my mindset in regards to HIV –AIDS pandemic. The way I perceived people living with HIV, my language towards people who are infected and affected with HIV. The thinking I had about the condom or the ABC as it is. God helped me to see it differently.

Moreover the guiding principles said it all and that is good enough for me to include the truth I learnt in my ministry sermons, workshop, preaching wherever I go.

To God be the glory.

May God bless CABSA.
